New London Garden Club

This Resource Directory for Gardeners was produced by the New London Garden Club, the oldest garden club in New Hampshire. We have 102 members and offer a variety of member and public programs throughout the year. In addition to free talks on gardening-related topics, which are open to the public, we offer an annual educational and planting program of wildflowers and their pollinators for third graders; planting and seasonal maintenance of 14 pocket gardens around town; scholarships for high school students; library flowers; and decorating the holiday wreaths and swags that adorn many buildings around New London in December. For our members, we organize parties, trips, classes, and a Pumpkin People workshop every year.

The New London Garden Club was founded in 1928 by Jane Tracy, a long-time summer resident and philanthropist whose gifts to the town include the library and its beautiful garden. The Club's original purpose was to provide volunteer maintenance of this Olmsted-designed garden. After nearly a century, the New London Garden Club is thriving with its now expanded range of programs.

This resource directory is a new endeavor for our Club. While its publication coincides with a one-day garden tour in June, 2024, called *Secret Gardens of New London*, we're certain that this directory will be a valuable resource for many gardening seasons to come.

We thank all of our advertisers. We're grateful for their support and encourage you to use these businesses for your gardening and landscaping needs.

Please visit www.newlondongardenclub.org to learn more about us and what we offer. Guest speakers and topics are listed for each meeting on our website. We meet at the First Baptist Church on Main Street in New London. We welcome everyone!
